Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

10

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

121

Number of students in supervised clinical experience during this academic year

121

Please provide any additional information about or descriptions of the supervised clinical experiences:

Aurora University School of Education defines supervised clinical experience as any course where pre-teacher candidates have hands-on contact with P-12 students through pre-teaching, a methods course, or the student-teaching opportunity. As AU educator-prep faculty changes from academic year to year, the number of pre-teacher candidates that visit a P-12 classroom will vary.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The initial licensure undergraduate and graduate programs at Aurora University offer teacher candidates instruction and preparation to meet the Assurances outlined in Section II. Through on-going communication and collaboration between partner district administration and Aurora University faculty and staff, partner district needs, current instructional practices, and trends, as well as Illinois state teaching requirements, are identified, and necessary changes and/or improvements are made to Aurora University teaching programs and clinical experiences. General education teacher program requirements at Aurora University provide teacher candidates the preparation necessary to instruct students with learning disabilities, as well as students with limited English language proficiency. The teacher preparation programs at Aurora University provide teacher candidates clinical, laboratory experiences which allow them to interact with students in local school settings and apply theory to instructional practices, as they work with

students of varied needs and diverse backgrounds. All methods and clinical experiences in the initial licensure programs require students to have experience in diverse settings, which focus on determining best instructional practice to students of all socio and economic status. The special education teacher program requirements at Aurora University provide teacher candidates the preparation necessary to not only instruct students with varied learning needs but also to provide whole group instruction in core academic subjects. Prospective special education teachers are required to take a prescribed distribution of general education courses that provide candidates with strong background knowledge in core academic subjects. Special education teacher candidates can implement various instructional techniques during clinical, laboratory experiences with students in local partner schools. Aurora University's initial licensure program faculty and staff are committed to on-going communication and collaboration with each other, local school district partners, and the state of Illinois to keep its programs current and continuously meeting the needs of the K-12 students it serves.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Technology is integrated into curriculum and instruction at the undergraduate, graduate and EdD levels of instruction. LIVETEXT is used as an assessment management tool and for course-based assessment data collection. LIVETEXT is assigned to every initial licensure course in the SOE. Candidates plan, write and submit lesson plans to course faculty who assess the work and provide feedback to the candidates. They also demonstrate their use of technology. Faculty collects and analyze key assessment data to refine/improve curriculum and set future SOE and department goals. Candidates are required to use various multimedia platforms to create digital stories on educational and societal issues. Candidates learn to edit video and embed content questions into educational videos using EDpuzzle, Educanon, and Zaption software platforms. Doing so adds purpose to viewing the video as content, as well as offers opportunities to "flip" the traditional learning paradigm. Candidates use Google products including Docs, and Slides to develop and express collaborative thoughts, ideas, and projects using a variety of software and cloud-based platforms including Buncee, VeeScope (iPads Chroma Key green screen app), Blogger, and Wordpress. Our education candidates share their technology skill by developing technology-infused lessons and teaching them in partnership school classrooms for students weekly and provide teachers with technology professional development at partnership schools and regional technology conferences several times each year.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All programs require teaching candidates to demonstrate an understanding of how to meet the needs of students with disabilities by requiring coursework as part of the degree program. The programs require specific special education classes and all other program classes have components that include how to teach students with disabilities with underlying instruction on how to accommodate and modify instruction to support students with disabilities. We include in coursework the needs of students with disabilities at the intersection of race, class, gender, immigration status, and LGBTQ identity, as disability can manifest differently across different communities. Aurora University's Teacher Preparation Programs are designed to support the success of students with disabilities. All general education teachers have the training and skills to teach the growing population of students with disabilities who spend most of their instructional time in general education classrooms. The teacher preparation unit of Aurora University teaches all teacher candidates how to provide the appropriate student supports for students with disabilities so every student can master the same rigorous, grade-level academic content as their peers without disabilities. Adapting to meet the needs of students with disabilities is integral to providing quality education to every student.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

We provide clinical field experiences and student teaching opportunities that allow general education teachers to interact with and understand IEPs.

c. Effectively teach students who are limited English proficient.

At Aurora University, we effectively instruct teacher candidates in how to instruct students who are ESL learners by teaching candidates how to: incorporate English vocabulary in speaking by having a short discussion using realia while teaching use short videos in art, music, dance, science, math and other relevant topics reciting rhymes and poetry reading around playing games like charades clapping out syllables stress correct syllables when speaking using graphic organizers, simple instructions, pattern books teach Tier 1, Tier 2, Tier 3 Academic Language teach root words (greek and Latin derivatives teach multiple meaning words

2. Does your program prepare special education teachers?

Yes

No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

The Aurora University special education teacher preparation program requires coursework and clinical field experiences that are in compliance with the Individuals with Disabilities Education Act. Examples of required program coursework include an emphasis on psycho-educational testing, diversity and special education, and oral language development. Courses stress the concerns of both the special education student, as well as the ELL student.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students are instructed on the process of developing and implement individualized education plans (IEPs) for students who qualify, and exposure to and collaboration with individualized education program teams occurs during clinical field experiences and during the student teaching experience.

c. Effectively teach students who are limited English proficient.

The Aurora University special education teacher preparation program requires coursework and clinical field experiences that are in compliance with the Individuals with Disabilities Education Act. Examples of required program coursework include an emphasis on psycho-educational testing, diversity and special education, and oral language development. Courses stress the concerns of both the special education student, as well as the ELL student.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Aurora University is unique in that it provides regional leadership in partnering with area school districts to identify the needs of the local schools. Through coordination with partner districts, the School of Education develops and delivers programs tailored to meet their specific needs. One example for Initial Licensure in the School of Education is a new program launched in fall 2016, Early Childhood Special Education with ESL/Bilingual. This program was designed for area school districts who called upon Aurora University School of Education because of the significant need in their school to serve children who have special needs and are ESL/Bilingual for ages Birth-Grade 2, early childhood age range. In recognition of the critical contribution that Illinois PreK-12 educators provide to the citizens of our state, Aurora University offers significantly lower tuition to provide access to teacher candidates who want to effect change in the PreK-12 classroom. Also, Aurora University partners with the Golden Apple Foundation and offers additional monetary relief for those candidates who wish to work in schools of need upon graduation. All programs in the School of Education at Aurora University are fully approved by ISBE and are mostly nationally recognized by specialized professional associations. All teacher candidates have diverse teaching opportunities beginning with early foundational classes, methods and finally student teaching.
